***Springtime In  
Kentucky  
April 24-May 15, 2014***

Join us as we meet near Bowling Green, home of the Corvette, American's Sports Car. You will have an opportunity to visit the newly renovated Corvette

Museum and the plant where this American Icon is built. Before heading to Louisville we will explore the world

famous Mammoth Cave. And these are just a few of the many interesting places you will visit before moving on to the Louisville area.

Have you ever wanted to take a cruise on the a paddle-wheel boat or have breakfast at Churchill Downs on Millionaire's Row during Derby week? Springtime in Kentucky will offer all this a more. While in Louisville, we will watch of the famous Louisville Slugger Baseball being made, have

boxed seats for an afternoon at the races and visit surrounding communities, including My Old Kentucky Home, in beautiful Bardstown.

From Louisville, you will travel to the home of the 2010 World Equestrian Games, at the Kentucky State Horse Park.

While at the Horse Park, you will experience traditional music, a hayride and explore the rich racing history of Kentucky. Derby Day will begin with a Kentucky tradition, a parade of the ladies with their Derby Hats and then we are off to the races where we will watch the Derby Races from the beautiful Keeneland Club House.

**Bourbon Capital of the World**

Whether you are enjoying Bourbon Balls at a candy factory that dates to prohibition days or touring Buffalo Trace Distillery, you will learn about the unique properties of Bourbon. No visit would be complete without seeing the Governor's Mansion, the impressive Capital Building, and Daniel Boone's grave site. From the state capital we will travel to Paintsville, the childhood home of Country Music Star, Loretta Lynn. While in eastern Kentucky you will also have an opportunity to see an early 19th century Mountain Home Place, learn about the effects of the mining industry on the communities, have an opportunity to meet with local craftsmen/women as they demonstrate the old fashion way of creating their crafts, and visit a museum that pays tribute to the many country singers who call this area home.

Our last night in Paintsville will end with a dinner and entertainment by local entertainers that is sure to please everyone.

Then it is on to Levi Jackson State Park. Here we will see a 1930's mill and visit a restored pioneer village, have dinner at the home of Colonel Sanders and his first KFC, and trav-

el to Sterns where we will take a train ride to a reconstructed 1930's mining town where you can hear those that lived here during this period about their experiences.

**Renfro Valley and Berea**

Renfro Valley predates the Grand Ole Opry and has played host to country music stars for over 50 years and we will have an opportunity to see "the Legends" perform.

Just down the road is the small town of Berea that serves as the artistic capital of Kentucky. Berea has a rich history that centers around Berea College and the famous Boone Tavern Hotel and Restaurant, that first opened in 1909, and was recently renovated. A tour of the college will introduce you to the many crafts taught at this college and see the finished products at various business in Berea. After a wonderful dinner at Boone Tavern Inn, we will reluctantly say goodbye, taking our memories of beautiful Kentucky with us as we travel "down the road".
